We have been very active at the Game and Fish Commission meeting in the last couple years. We feel that our input and effort had a great deal to do with the decisions that the Commission made in 2005 when they did not make the proposed changes with the Bull Elk tags where they were going to move a large portion of those tags to August and September. This past year we were instrumental in getting the Commission to direct the Game and Fish Dept. to move opening of Archery Deer to August 24th from August 31st. In doing so it moved the opening weekend away from Labor Day weekend and also prevented the overlap of Archery Deer and Archery Elk hunts. Do you feel that you are well represented at Commission Meetings by the ABA?
